READ THESE DIRECTIONS CAREFULLY – you’ll get full credit if you just pay attention…

Turn in one problem you hope/dread will be on the midterm. Put the problem (in BIG DARK letters/font) on the front of a page, with your name on the back. Problems will be copied onto transparencies and a sampling used for the review session. NO LATE HOMEWORK ACCEPTED.

Notes:

1.) The problem must be original to you – no copying out of the book or any other source. It must also be relevant to 469 material.

2.) The problems will not be “held against you” – I won’t alter the midterm based on anything you put on the example problem.

3.) You don’t need to provide a solution.

4.) This must be done solo – no group questions.

5.) If it isn’t BIG and DARK letters/fonts/diagrams, you won’t get credit.

6.) If it isn’t on 8 ½”x11” paper (normal paper), or has shreds of spiral-notebook garbage on the side, you won’t get credit.

Clever/interesting problems, or ones that strike my fancy for any reason, will get extra credit. Poorly written, mostly irrelevant, or otherwise weak questions will lose points.
